Roosevelt has not sent anybody to the Ananias club in over a week. What's going to happen?

"The Great North American Africano lion hunter" is the latest designation applied to the President.

What a difference in the manner in which Foraker and Haskell met the charges made against them by Hearst.

Fairbrother's Everything speaks of Hearst as the man who "incited a low-browed Anarchist to murder the great McKinley."

The public is not surprised that Roosevelt has gotten tired of the correspondence with Bryan. The expected has happened.

Mayor Springer has ordered straw hats into winter quarters. Better not let him catch you disobeying the mandate.

Archbold has come to the conclusion that it is safer to conduct his correspondence by telephone or wireless telegraphy than by letter.

Do you reckon Hearst's papers will publish any of the letters that were stolen from Republican campaign headquarters Sunday night?

The President is not holding any more Cabinet meetings on the political situation. He found that the public did not take well to such proceedings.

What percentage, do you suppose, of the people who read that Cleveland letter are now saying that they knew at the time of its publication that it was a forgery?

The bigest foreign mail ever sent out of New York was taken by the steamship Bostic Thursday for points in Great Britain, as result of the reduction of the postage to two cents per ounce on letters.

The pastor of one of the Newbern churches announces that he will begin a crusade against idleness and vagrancy. That is a good idea. The ministry can do much good along that line and its aid will be welcomed by the State and county officers.

We suppose that Roosevelt will now turn his attention to Chairman Hitchcock. The latter does not seem to be running the campaign to suit the President. Wonder if Roosevelt will hold a Cabinet meeting on the proposition to discipline Chairman Hitchcock for the improper manner in which he is conducting the Republican campaign?

It must be worth something more than the salary to be Senator from Wisconsin. It is said the four candidates for the nomination by the Republican primary spent between four hundred thousand and a million dollars on the campaign. McGovern, the "poor man's candidate", spent over eleven thousand dollars trying to get the nomination.

SUPERIOR COURT

Lander Wilson, Colored Youth, Convicted of Attempting to Wreck Beach Train.

FURMAN LEE TRIAL TODAY

Number of Other Cases Disposed of Yesterday—Plea of Insanity Did Not Avail in Wrecking Case. Other Proceedings.

No cases of general interest save that of Lander Wilson, a small colored boy charged with attempting to wreck the Carolina Beach train some weeks ago, were disposed of in the Superior Court yesterday. It was expected that the case of Furman Lee, the young white man charged with the killing of a colored boy in a restaurant door, several months ago, in the southern part of the city, would be taken up during the afternoon, but the train wrecking case consumed more time than was expected and the more important case went over until this morning.

Brooke G. Empie, Esq., counsel for Wilson in the wrecking case, entered a plea that the defendant was half-witted and, therefore, not responsible for the deed, but this was successfully opposed by Solicitor Duffy and Herbert McClammy, Esq., counsel for the prosecution. The jury retired with the case at 5 o'clock yesterday afternoon and a little after 7 o'clock yesterday evening, after court had adjourned, a verdict of guilty was returned. The defendant will be sentenced upon the convening of court this morning.

Furman Lee, who will go on trial this morning is charged only with murder in the second degree and no special venire for the case has been ordered. It will be recalled that at the last term of court, a mistrial resulted and much interest is being manifested in the outcome in this second hearing. The prisoner, who has been in jail several months, is represented by Messrs. Pait & Woody and L. Clayton Grant, Esq.

A jury yesterday returned a verdict of not guilty in the case of Chap. Taylor, a colored boy, charged with assault and battery in throwing a companion on a live wire with which the boys were projecting in the street. The defendant was represented by Messrs. Pait & Woody, who contended successfully that criminal intent had not been shown.

Otis Outlaw and J. A. Freeman, charged with gambling, submitted and were let off with costs. Nol pros with leave was taken in cases of Wesly Mitchell, charged with embezzlement, nad Fannie Carroll, charged with disorderly conduct and nuisance.

Maggie Murphy, charged with disorderly conduct, failed to appear and an alias capias was ordered.

Will Yopp, charged with an assault with a deadly weapon, was found not guilty by a jury and discharged. The State likewise failed to make out its case against John Mitchell, colored, charged with the larceny of a pair of trousers from a Syrian merchant. Valentine Howe, another negro implicated in the same theft, gave the deputies the slip in the crowded court room the day before and therefore could not be placed on trial.

Robert Bennett submitted to an assault with a deadly weapon and judgment was suspended on payment of costs, defendant being recognized with J. A. Hewlett until January term.

Case against Christian Nixon, charged with trespass, was continued. Continuances were also allowed in cases of Paul James, the negro previously acquitted of criminal assault but now charged with an assault with a deadly weapon, defendant having given bond, and Ellerbee Barnes, charged with seduction and required to answer a sci fa.

Court took a recess at 6 o'clock until 9 A. M. today.

Day of Prayer at Burgaw.

A number of members and visitors from this section of Wilmington Presbytery will go up to Burgaw on this morning's train for the "Day of Prayer" to be observed there today by the Woman's Missionary Union. The programme as published includes devotional exercises by Rev. W. M. Sikes, an address by Rev. Motte Martin; an address by Dr. A. D. McClure and "a chain of prayer" by ministers and laymen, as features of the morning session, and an address by Miss Albaugh; report on the debt fund by Mrs. W. M. Cumming; a report on the hospital by Miss Murphy and a consecration service conducted by Mrs. J. C. Stewart as the principal features of the afternoon session. Lunch will be served at 1 o'clock on the lawn of the church.

Masonboro School Lawn Party.

Unique invitations have been issued, announcing a lawn party which will be given next Friday night, October 9th, on the lawn of the Masonboro Public School, which promises to be an occasion of pleasure and interest. The proceeds of the evening will go toward the purchase of a piano for the school and many Wilmington people are expected to attend.

COMPLETES ITS DUTIES

Grand Jury at Present Term of New Hanover Superior Court Makes Report and is Discharged With Thanks.

Submitting a resume of its work during the week and making a number of recommendations as to the various public institutions of the county, the grand jury at the present term of New Hanover Superior Court, came before His Honor, Judge C. C. Lyon presiding, yesterday afternoon shortly before 5 o'clock, made report and was discharged with thanks.

The report as read by Secretary Wm. S. Clayton was listened to attentively, a copy of the same was ordered spread upon the minutes by the clerk, a copy furnished to the Solicitor and County Commissioners and also to the succeeding grand jury at the next term, that it may see that the recommendations of the retiring grand jury are carried out by the proper officers. The report in full is as follows:

"Wilmington, N. C., September, 1908.

"To His Honor, Judge C. C. Lyon, Presiding, September term, Superior Court.

We, the grand jury of the September term of the Superior Court of New Hanover county, beg to submit the following report: We have examined and passed upon 44 indictments. In our examination of the Court House we found the ceiling on the back porch in very bad condition and should be repaired without delay. We wish also to call attention to the floor of the hallway of the Court House which is giving away and needs supports placed underneath same at once. We suggest that an architect be consulted and some means devised to prevent water from rising and standing on the floors of three of the basement rooms on the north side of the building. Otherwise we found the building in good condition, with the exception that we suggest that the janitor give better service in the way of cleaning up and taking care of the building.

The convict camp on the Market street road was visited and found in sanitary condition and the prisoners there are fed, clothed, and housed at night in the proper manner. The prisoners upon being questioned had no complaint to make. In the camp we found one prisoner with a venereal disease which he claimed to have contracted in the county jail. We recommend that this prisoner be isolated and given the proper medical attention. This recommendation is based upon the professional advice of a competent physician. We also visited the convicts at work on the Masonboro road and found them properly taken care of and satisfied.

The county macadamized roads we found in very good condition with the exception of a few holes and sinks which should be repaired at once and a portion of the Castle Haynes road between Smith's Creek and the railroad crossing which we found in need of immediate attention, as the condition is such as to demand repairing promptly. We also call attention of the proper authorities to the reckless throwing of glass upon the public highways and we recommend that the law against same be more rigidly enforced.

We visited the County Home and found the building itself in good condition, but it appears as if more attention is paid to the farm than to the proper keeping of the building and the inmates thereof. We would suggest that portions of the house be kept in better sanitary condition. We call special attention to a paralytic for whom better arrangements should be made with proper medical attention.

We visited the jail and found the condition of the lower and upper cells in an unhealthy and unsanitary state. This applies to dirt on the floor and the exttremely filthy condition of their berths. We found two cases of venereal disease among the prisoners and we recommend that they be isolated and given medical attention which they claim not to have had. This state of affairs shows plainly the need of frequent visits to the jail by the county physician. The present system of weekly inspection does not seem sufficient and we would recommend that the physician make at least two thorough inspections of the buildings and prisoners each week. Feeling that we have fullfilled our duty and passed upon all matters before us, we respectfully ask that your Honor discharge us.

Respectfully submitted.

W. B. McCLELLAN, Foreman.

Wm. F. CLAYTON, Secretary.

Architect McMillen Chosen.

Mr. Chas. McMillen, the architect of this city, returned on the early morning train yesterday from Lumberton, N. C. It is understood that Mr. McMillen has been selected as the architect for the handsome new $20,000 church which the Baptist congregation of Lumberton will build in the near future. Mr. McMillen built the splendid new graded school building in Lumberton and another at Rowland besides being the architect for the Grand Lodge Masonic Temple in Raleigh. He is now preparing preliminary sketches of the new church, and will submit plans of the same at an early meeting of the congregation of the church.

PITTSBURG LEADING

Won Doubleheader With St. Louis and Jumped to Head of Percentage Column.

NATIONAL RACE EXCITING

New York and Chicago Could Get But a Single Game—Standing of Clubs on American Circuit—Scores in Detail.

Pittsburg this morning is in the lead in the National League pennant race, the two victories won by that club in St. Louis breaking the tie with Chicago, and increasing Pittsburg's percentage mark by five points.

New York and Chicago both won their games, but playing single games, each gained but two points, New York dropping to second and Chicago to third position. The standing as it has here been figured is left unaffected by President Pulliam's decision of last night declaring the New York-Chicago game of September 23rd a tie and finding that Chicago had no claim to a forfeited game on the day following. The standing, yesterday's games included, is as follows:

Clubs.	W.	L.	Pct.
Pittsburg	97	55	.638
New York	95	54	.637
Chicago	96	55	.636

In the American League Detroit and Cleveland both won their games, the latter club retaining second position by virtue of its defeat of Chicago which is now 13 points behind Cleveland. The standing.

Clubs.	W.	L.	Pct.
Detroit	88	61	.591
Cleveland	88	62	.587
Chicago	85	63	.574

National League Results.

St. Louis, Oct. 2.—As the result of a double victory over St. Louis today Pittsburg went into first place in the National League pennant race. The first game was a walk-over for Pittsburg, which won 7 to 4. Leifield pitched effective ball while Beebe was hit freely. In the second game St. Louis scored in the third, but in the seventh Gibson tied the score with a home run. In the ninth Wagner also made another, winning the game. Scores:

St. Louis .. ..100 020 001—	4	7	6
Pittsburg .. ....104 011 000—7	13	1	

Beebe and Ludwig; Leifield and Gibson. Time 1:45. Umpire O'Day.

Second Game:—

St. Louis .. ....001 000 000—1	7	2	
Pittsburg .. ....000 000 101—2	6	2	

Rhodes and Bliss; Camnitz and Gibson. Time 1:33. Umpire O'Day.

Philadelphia, Oct. 2.—New York easily won today's game by scoring seven runs in the first inning. Philadelphia used three pitchers in the first inning during which New York made only three hits, two errors and six bases on balls being thrown in.

Tenney opened with a pass and he scored when Herzog singled and raced to third on Osborne's fumble. McCormick's single scored Herzog. A double play followed on Donlin's grounder. Seymour walked and Knabe fumbled Devlin's grounder. Bresnahan and Bridwell each walked forcing in Seymour. Foxen then went in and gave two passes forcing in two more runners. Moren next went in to pitch and a single by Herzog sent in two more runs. The inning ended by Dooin throwing out McCormick. Barring the fifth Ames was effective, especially with men on the bases. In the fifth Philadelphia got only one run on four singles and an error. Score:

New York .. ...700 000 000—7	9	2	
Philadelphia . ..000 010 010—2	9	2	

Ames and Bresnahan; McQuillen, Foxen, Moren and Dooin. Time 2:02. Umpires Klem and Johnstone.

Cincinnati, Oct. 2.—Brown held Cincinnati safe at all times today, not a single runner reaching third base, and only one reaching second.

Rowan's wildness and one hit gave Chicago a commanding lead in the first inning. Score:

Cincinnati .. ...000 000 000—0	4	1	
Chicago .. ....3 00 000 020—5	7	0	

Rowan, Savidge and McLean; Brown and Kling. Time 1:35. Umpires Rigler and Owens.

Brooklyn, Oct. 2.—Donovan's men won again from Boston today by an extra effort in the eighth inning, which places them more securely ahead of St. Louis, the tail-end club in the race for the pennant. Score:

Boston .. ..002 000 000—2	7	0	
Brooklyn .. ....000 100 02x—3	7	2	

Flaherity and Graham; Pastorius and Dunn. Time 1:18. Umpire Emslie.

The American League.

Boston, 8; Philadelphia, 1.

Washington, 12; New York, 2.

Cleveland, Oct. 2.—Cleveland defeated Chicago today in the most remarkable game of the year in the big leagues by the score of 1 to 0. Joss not only shut Chicago out without a hit, but he did not allow one of his opponents to reach first base, although the visitors used three pinch hitters in the ninth. Joss was aided by some remarkable support from LaJoie. On the other hand Walsh pitched a sensational game, striking out 14 men in eight innings. He struck out Good four times and LeJoie and Clarke twice each. Cleveland hit but four balls past the infield and only five of the locals reached first base Cleveland scored its only run in the third. Birmingham led off with a single. Walsh caught him napping off first but Bell's throw to second hit the runner in the head and he went to third whence he scored when Walsh and Schreck became crossed in their signals and a ball went to the grand stand. Schreck had a finger broken. Score:

Cleveland .. ....001 000 000—1	4	0	
Chicago .. ..000 000 000—0	0	1	

Joss and Clarke; Walsh and Schreck and Shaw. Time 1:40. Umpires Connolly and O'Loughlin.

Detroit, Oct. 2.—Detroit disposed of Waddell in one inning and then apparently threw away the game by erratic fielding and reckless base running. The hitting of Crawford and Rossman tied it in the seventh and won it in the ninth. There was a warm argument on whether Rossman's hit in the ninth which scored Cobb from first was only a double under ground rules or not, but the umpires ruled in favor of Detroit. Score:

Detroit .. ..300 000 202—7	10	4	
St. Louis .. ....010 003 110—6	15	5	

Summers, Mullin and Schmidt; Waddill; Howell and Smith and Spencer. Time 2:00. Umpires Sheridan and Egan.

KITCHIN IN WHITEVILLE

Possibly Largest Crowd of Campaign Greeted Democratic Nominee in Columbus Yesterday — Big Barbecue and Parade.

(By Long Distance Telephone.)

Whiteville, N. C., Oct. 2.—With the possible exception of Lumberton on Tuesday of this week and Wentworth, Rockingham county, earlier in the canvass, Hon. W. W. Kitchin, Democratic nominee for Governor, was greeted by the largest crowd of the campaign in Columbus today. Many people said it was the largest crowd they ever saw in Whiteville and the estimates ran all the way from 4,000 to 5,000.

And Columbus did herself proud on this occasion. The distinguished visitor arrived in Whiteville on the early morning train today accompanied by State Senator Jackson Greer and the Delgado Band, of Wilmington. At the station Mr. Kitchin was met by President Donald MacRackan, of the Columbus Bryan and Kitchin Club; Mr. W. H. Phillips and other prominent party leaders, who escorted their guest to the Williams House, near the station, where he spent the morning in quiet and receiving a few of his friends. At 12:30 o'clock a monster horseback parade headed by Dr. W. Ross Davis the chief marshal, formed at the hotel and with the wildest enthusiasm but the strictest order, moved to the martial music of the band to the Court House square, a mile distant in Whiteville proper. Twenty-five aides to the chief marshal kept everything in the best of order and the parade was an inspiration to witness, extending nearly a mile. Mr. Kitchin rode in a carriage with President MacRackan, of the Club, and Chairman J. A. Brown, of the Democratic County Executive Committee, and was given a great ovation when he reached the square.

When the band had responded nobly to the enthusiasm pent up everwhere and several selections had mingled with the cheering of the multitudes, Hon. David J. Lewis, who only a short time ago abandoned his Republican affiliations, in a speech ringing true and clear for the Democracy, presented the gifted North Carolinian.

Those who have heard Mr. Kitchin previously during this campaign do not hestitate to say that he was at his best today. State and National issues were discussed with a clearness of perception and with an ability that compelled admiration and conviction on the part of his hearers. Among these were hundreds of people from the country and they listened attentively and with apparent approval. There can be no question but that Columbus county's majority was increased considerably by the appearance of the Governor here.

Following the speaking there was a great barbecue on the square for which two beeves, 13 fine pigs and nearly as many head of sheep gave themselves a sacrifice to the sharp appetites of the stalwart Democracy.

Mr. Kitchin left on the afternoon train via Florence, S. C., for Fayetteville where he will speak today. His presence in Columbus was a vote winner and the people of the county upon the occasion of his coming manifested a degree of unity and determination of purpose that will tell on the third day of November.

Schooner Cassie F. Bronson Sold.

The schooner Cassie F. Bronson, which was some months ago pulled off the beach at Little River, S. C., by the Wilmington, Southport and Little River Company and which has since been tied up at the Ocean Fisheries Company's wharves down the river, was towed up to the city yesterday by the steamers Compton and Blanche and moored at Point Peter where she has been delivered to her new purchasers, the Gilbert Transportation Co., of Mystic, Conn. Capt. Gilbert, one of the new owners, is in the city and has arranged to fit the Bronson out to be towed to the home port.

HON. W. C. NEWLAND

Democratic Nominee For Lieutenant Governor Greeted by Small Audience.

MAKES FINE IMPRESSION

Regretted That Hon. B. R. Lacy Was Unable to Be Present—Issues, State and National, Ably Discussed.

The sudden severity of the weather for this semi-tropical climate and a number of counter-attractions, of more or less magnitude, rather militated against a large attendance at the Democratic rally in the Court House last evening, but those who were present heard a splendid address from the Hon. W. C. Newland, of Caldwell, Democratic nominee for Lietuenant Governor, and their enthusiasm quite made up for what was lost in numbers.

Hon. B. R. Lacy, nominee for State Treasurer, who was also appointed to speak, found it impossible to get to the city on account of illness but Mr. Newland hopes to have him with him at his succeeding appointments. Mr. Newland arrived on the evening train from Wallace and Magnolia where he spoke on Thursday and yesterday and was met at the station by Chairman John J. Furlong, of the Executive Committee, and several personal friends, who gave him a cordial welcome to the city. He is being entertained while in the city at The Orton but returns up the Wilmington and Weldon railroad to speak at Burgaw today.

The meeting in the Court House last night was called to order by Chairman Furlong and to Marsden Bellamy, Jr., Esq., fell the pleasant duty of presenting the speaker, which he did in a brief address, referring to the importance of the office of Lieutenant Governor, the part that New Hanover played in the Charlotte convention in naming Mr. Newland, and his eminent qualifications for the high honor to which he aspires.

After acknowledging briefly the introduction by Mr. Bellamy and making a pardonable personal allusion to the fact that it had been his good fortune to claim as his companion through life the daughter of a former Wilmingtonian, Mr. Newland stated that it was like talking war to Hannibal and carrying coals to Newcastle to speak to a people which had but one party, and the tolerance of one party was justified, too, when the trying ordeal of this section in '98 was reflected upon. He came from a county where there were two parties and first one was on top and then the other. The West had come to the relief of the East in those stirring days which he described and it was now up to the East to rally to the call from the West. In the State and Nation there was a great struggle going on by the two great parties, one to maintain ascendency and the other to regain it; each party was hard at the other's throat and it behooved good citizens all over the country to give ear to public questions, study them and be prepared to vote intelligently, patriotically and conscientiously at the polls in November when the sovereign voter is an uncrowned king. The speaker admonished no man to vote in a spirit of madness or in prejudice; that would not be a patriotic vote, but men and issues are presented and these should be weighed carefully by every man and his verdict recorded at the polls. The great slogan now is "Shall the People Rule." He contrasted the two candidates and the two platforms in unerring manner, sending straight to the hearts of his hearers the sound and logical arguments which are expected to have their reflex in the returns all over the United States next month. Taft was a President made candidate; his nomination by his party, backed by the Presidential power and Federal patronage, had been assured long before the Republican convention met. Bryan's nomination was none the less conceded before the Denver convention, but Bryan was not backed by Presidential power nor by Federal patronage; his nomination was solely and only because he was demanded by the people and the call of the people is never ignored in Democratic councils. The Republicans as a whole had no more to do with the nomination of Taft than they had with the election of a Methodist Bishop. Judge Taft, a fine jurist and an able man, was always in office and never elected; he had no sense of responsibility to the people. He has lived in an atmosphere above the masses and does not understand their feelings and their wants.

Contrasting the National platforms, Mr. Newland took up the election of United States Senators by the people, declared for by the Democrats, but voted down 848 of 96 by the Republicans. The Republicans don't want it because many of their Senators are owned by the trusts and monopolies and the party would not have them

THE GOOD ROADS MOVEMENT.

The campaign in favor of good roads in this State is attracting attention in other parts of the country. North Carolina seems to be taking the lead among the States of the Union in this matter. The Manufacturers' Record has this to say of the proposed good roads congress which is to be held in Greensboro:

"An important feature of the good-roads congress to be held at Greensboro, N. C., October 13-16, is a trip to be given the commissioners of North Carolina counties over the highways of Guilford county, in order that they may more fully appreciate the value of good macadam roads. Referring to the congress, Mr. C. G. Wright, chairman of the good-roads committee of the Greensboro Chamber of Commerce, writes to the Manufacturers' Record:

"'We appreciate the work you are doing for the upbuilding of the South and know that this movement has your hearty endorsement. This is the first concerted effort ever made in North Carolina along this line, and we hope it will result in much good to the State. We hope to have the Legislature create a highway commission composed of intelligent and progressive men, who, in turn, may work in concert with the other States of the South.'

"North Carolina is a pioneer Southern State in equipping itself with improved highways. What it has already done in that direction has been an influential object-lesson for other parts of the country, and the congress at Greensboro ought to speed the beneficial work in North Carolina and in the rest of the South."

This is a good advertisement for our State. It shows to the people of the whole country that ours is a progressive State; that our people realize what is needed to advance the welfare of the people individually and of the State generally. Our people have awakened to the fact that this can be done in no better way than by a system of good roads, and, realizing this, they are going about the work in a systematic manner. In a few years the public road system of this State will be a source of pride to all our people.

FAIR PLAY WANTED.

According to a statement made to a Charlotte Observer representative, Congressman Hackett has just cause for complaint of the way in which he was treated at Wilkesboro last Tuesday. His opponent, Mr. Cowles, had an appointment to speak there that day and he challenged Mr. Hackett to have a joint debate, which the latter accepted. It was agreed that each should speak an hour, Mr. Hackett leading off, and then both have fifteen minutes for reply. After Mr. Cowles concluded his speech Mr. Hackett was informed that he could not make reply to the Republican candidate. This was taking unfair advantage of Mr. Hackett. The Republicans are pretending that they are anxious for joint debate between all opposing candidates. We hope this Wilkesboro affair is not a fair sample of the manner in which they intend to conduct such joint debates as are arranged. If that be their program they cannot expect the Democrats to agree to joint-discussions. There is nothing fair in such proceedings. It is a scheme to get Democrats out to hear Republican speeches, a proceeding that our people should put a stop to at once. They should demand fair play or agree to no so called joint debates.

HELP THE DEMOCRATIC CAUSE.

We have received a letter from Mr. T. H. Vanderford, of Salisbury, the representative in this State of the treasurer of the National Democratic committee, urging that money be raised for the expenses of the campaign. He says he is in receipt of a letter from the committee urging him to impress upon the people the importance of raising funds for the expenses of the campaign. The committee is badly in need of money and the only way it can get it is by voluntary contributions from the people. The legitimate expenses of a national campaign are tremendous and the Democratic party depends entirely on what the people give. It has no big corporations or trusts backing it. It takes no gifts of money from such companies. Its managers in conducting the campaign are acting as representatives of the people and to the people they look for the means to keep the good work going on. We hope the readers of the Star will make note of this fact and will come to the aid of the committee with contributions to our campaign fund.

WILL PROVE A FAILURE.

It seems that Hearst is making a still-hunt in this State. Report comes from High Point that he has an agent in these parts looking over the ground, for the purpose of determining whether or not to put out a State ticket. The rumor says, further, that candidates for State offices will be nominated. This is somewhat of a surprise for there are few people in our State who if they take the trouble to go to the polls, will not vote either the Democratic or the Republican ticket. Hearst will be wasting his money if he tries to get up an independence party in this State. North Carolina is going to give Bryan a tremendous majority. What votes he does not get will be cast for Taft. It will be Democratic or Republican—no side issue will get any following among our people and the Democratic ticket is going to be far ahead of the other. The Hearst movement, evidently, is for the purpose of taking votes from the Democratic ticket, but if the effort is made it will prove a signal failure.

BRYAN'S NAME CHEERED AT REPUBLICAN MEETING.

That was a remarkable proceeding in Baltimore Wednesday night when at a Republican mass meeting the mention by one of the speakers of the name of Bryan brought forth tremendous applause. There were six thousand people in the audience, many of them ladies who sprang to their feet when Bryan's name was mentioned and helped swell the roar of applause that the men gave to the Democratic candidate. This is one of the many evidences the country has witnessed during this campaign that Bryan has the people with him; that he is their favorite and that he will get the votes of those of the citizenship who want as President a man whom they believe is honest and will take care of their interests when they come in conflict with those of the big corporations which for years have been growing richer and richer off the people.

CURRENT COMMENT.

—"I am not fitted, either by temperament or taste, for the Presidential office," says Candidate Debs. Debs should not let that worry him. Some who have occupied the office were similarly afflicted, and Debs is in no danger of ever undergoing this ordeal.—Macon Telegraph.

—A Boston scientist claims to have discovered a method by which color and original appearance can be restored to a mummy. He might hear something to his advantage by applying to the headquarters of the late Foraker presidential boom.—Savannah News.

—The drama having gone through the shooting stage and all the villians being stretched out cold, the point to be settled in the next act is this: Who started the excitement, Hearst or Roosevelt? That is a sturdy question, over which the folks in the gallery may come to blows in short order. By the time they have wearied of the struggle, the voters will have finished their especial task of deciding whether Bryan or Taft would make the better President.—Baltimore American Star.

—Seeing what elaborate preparations the Japanese are making to receive our fleet on a designated date, it would seem to be a matter of courtesy for the fleet to arrive there on that date. As for the danger of its being swept by cholera from Manilla if it lies off Cavite for a few hours, or even days, to coal, that may be left to the fears of those who still cling to mediaeval notions of the propagation of pestilences. Provided they do not consume contaminated food or water from the shore, our sailors will be as safe in Manilla as in the middle of the Pacific.—New York Tribune.

—Old man Foraker is in no pleased frame of mind towards Taft and the President, and his energies are now turned towards defeating the Republican candidates, that being the purport of his recent letter of confession and avoidance. This is an amazingly good sign for the Democrats. While Foraker, having been horribly exposed, can afford to fight the Roosevelt party more or less openly, his companions, Aldrich, Cannon, Elkins, Dalzell and the rest must hold their peace, but it is not impossible they are pondering. Within the Republican party they stand for Craft against Taft. They would not hesitate to scuttle the Republican ship if it seemed advisable.—News and Courier.

—The repudiation of the late Mr. Cleveaind's executor, and also by Mrs. Cleveland, of the article on the presidential campaign which was recently printed as coming from Mr. Cleveland's pen, now adds another sensation to a sensational presidential struggle. That the Cleveland article, in which the late President appeared to favor Mr. Taft to Mr. Bryan, is now to be regarded as a forgery from beginning to end, must be accepted as established, in view of the admissions made this morning by its original publishers. To Col. Henry Watterson is probably due the credit for running down and exposing the fraud upon the American people.—Springfield Republican.

—Colonel Stewart may have to go, for the President himself has said it and there is no appeal from him. But not even Mr. Roosevelt can keep the Stewarts out of the Army. They are still coming: Frederick Warren Stewart on the strength of a satisfactory competitive examination has just received his commission as second lieutenant, and a brother, Captain William F. Stewart, Jr., eldest son of the exile of Fort Grant, has been in the army since 1898. The army has seen 3 generations of Stewart's, for the Colonel's father, Joseph Stewart, fought in the Civil War and was a colonel before him. A tough and sturdy race, soldierly by instinct and habit. It seems to have won its right to a "square deal," even from President Roosevelt.—New York Sun.

—The New York Times is unable to trace to its origin Gov. Haskell's descriptive term, 'Four flusher," applied to President Roosevelt. It is disposed, however, to believe that in the game of poker, to which the term is indissolubly linked, a four-flusher means an unsuccessful bluffer, and as it does not think Mr. Roosevelt is that sort, The Times considers Gov. Haskell's application of "four-flusher" to Roosevelt inappropriate. We artist is successful until his game is revealed, and then he becomes a disastrous failure; when it is known that his bluffs are bluffs, he ceases to be able to bluff. That, we think, is what the Governor of breezy Oklahoma meant. The State is of the opinion that President Roosevelt has been the most successful bluffer that has ever figured prominently in public life in this country—and that the gentlemen sitting in the political game with him have about sized up his methods. Teddy is experiencing a "call," and he has only a bob-tailed flush.—Columbia State.

LECTURES OF GREAT INTEREST

To Be Delivered Here By Col. Frank A. Dillingham.

ABLE TALKS ON HEALTH

The First of a Course of Interesting Lectures Was Delivered By Col Frank A. Dillingham Last Night.

While the performance given by Col. Dillingham's Plant Juice entertainers last night at the corner of Fourth and Castle streets, was highly appreciated by the large audience in attendance, as shown by the applause with which every number of the programme was received, the real feature of the evening, and the one that commanded the greatest attention from those present was the lecture delivered by Wilmington's distinguished visitor.

During his stay in Wilmington it is the intention of Col. Dillingham to deliver a series of lectures on the subject of health ,and the treatment of disease. One of these lectures will be given each evening and will be devoted to some one of the ordinary ills of life; the everyday afflictions of mankind. Last night he discussed the subject of catarrh, with which disease Col. Dillingham stated that seventy-five per cent of the people of this climate were afflicted.

The speaker impressed his hearers with his intimate knowledge of this subject. He told them that thousands of men and women have filled untimely graves, victims of catarrhal poison, who never knew that they were suffering from this terrible disease. In vivid terms he explained how constipation and colds filled the blood with catarrhal virus, the membranes of the cavities and air passages became inflated, followed by ulceration; the poison mucous dropped into the throat, the lungs became affected and where there should be health, strength and vigor, came weakness, consumption, wasting disease and early decay, because there was not sufficient vitality in the impoverished system to resist the poison.

Stepping to the front of the platform, while holding aloft a bottle of Dillingham's Plant Juice, the speaker said: "I thank God that I can come before you tonight and tell you that a remedy has been discovered that is a positive and permanent constitutional treatment and cure for catarrh in all its forms.

"I am not in need of money; I have enough for the years that I am yet to live, but I have left my home with all its comforts to come out among you suffering people to tell you that you need suffer no more of catarrhal poisoning and its resultant diseases because of this wonderful remedy, this marvel of the medical world."

At the close of the lecture dozens crowded around the speaker to shake his hand and express their deep gratitude for what his remedies had done for them, and among these was Dr. Carl Koch, who had obtained the Plant Juice remedies in Charlotte, before Col. Dillingham's arrival in this city. In his conversation with Col. Dillingham Dr. Koch said:

"I have been a sufferer for some time with catarrh, both of the head and the stomach. The disease first made its appearance in my head; the nasal passages became inflamed and the catarrhal discharge passed into the stomach, greatly impairing the functions of that organ and wrecking my general health. My digestion became very poor and I had little desire for food.

"Having heard so much of your Plant Juice I bought a bottle and began taking it according to directions. I have now finished the first bottle and the condition of my health has undergone a great change. In my case Plant Juice has proved its worth in the treatment of catarrh. My appetite has shown wonderful improvement and the relief that I have obtained through the use of your Plant Juice will cause me to always feel grateful to you and your remedies."

Statements of this nature are of far more interest to Col. Dillingham than the reports of enormous sales of his famous remedies. It is the achievements of Plant Juice that interest him and no doubt he will hear many statements similar to this during the delivery of his course of lectures at the corner of Fourth and Castle streets.

—Hickork, N. C., Oct. 1.—Mr. J. F. Click authorizes your correspondent to state that the following signed editorial will appear in the next issue of the Times-Mercury: "The charge lately made in this paper that State Senator B. F. Aycock was drunk when he spoke in Hickory in 1904 is found upon investigation to be a mistake. The writer was not at home on that occasion. The charge was based upon information which he reasonably believed to be correct. It was not intended in the editorial containing the above charge to accuse Mr. Aycock of carrying a pass, the purpose being to call attention to the campaign rumors heretofore circulated to the effect that members of the corporation commission have ridden on passes and in special cars provided by the railroads. The writer, though he does not know Mr. Aycock, personally, is fully assured that he is a sober, hightoned Christian gentleman, and this assurance he desires to convey to every person who may have seen or heard of the unfortunate editorial referred to. This statement is made in simple justice to the writer and to the man he has unintentionally wronged."

A Wash Twice a Year.

A charming Hungarian countess once said to me, "What is so nice about the men from England is that they look so clean, as if they had just come from a swim." Of course we pride ourselves on our morning tubs, splash and splutter and shiver and polish up with rough towels. "What dirty people those English are," remarked an Italian, "when they find it necessary to wash all over every day! Why, I only wash twice a year!" I have met Chinese who regard washing all over as a proceeding decidedly improper. A Chinese is washed when he is born, and he has no other altogether wash till he is dead. But we British people have adopted cleanliness only of recent years. Small houses have their bathrooms, but very few houses built over half a century ago were provided with bathrooms. I suppose those must have been the days of the Saturday night wash in the kitchen. Certainly our gay cavalier ancestors in silks and ruffles must have been a dirty gang. Handkerchiefs were not invented, and the velvet cloaks must often have been greasy. The rollicking old times were very dirty old times.—"Baths, Pleasant and Otherwise."

The Don't Worry Theory.

The usual advice given to the worrier is, "Don't worry." This advice is foolish because impractical. No one can stop thinking one type of thought except by substituting for it another. Besides, it is dangerous advice, for, even supposing one could mechanically put an end to a worrying state of mind, he would simply be like an engineer who should plant himself on the safety valve of his engine. The energy expended in worry, turned inward on itself, would tear the mental mechanism to pieces. No! What the worried man or woman needs evidently is to be taught how to find a healthful outlet for his or her nervous power thus going to waste. If we say "Don't worry," let us also be careful to add, "But work," and let us also point out what kind of work should be undertaken and the spirit in which it ought to be done. In other words, what the worrier needs is re-education.—Rev. S. S. McComb in Harper's Bazar.

Jefferson Davis' Ambition.

Jefferson Davis was a man of most sincere conviction and courageous action, and when the Southern Confederacy was about to be organized his single ambition was the command of the Confederate army. This I had from his own lips at his residence at Beauvoir, Miss., some fifteen years after the war. He told me that when he started for Montgomery, Ala., when the movement began for the organization of the Confederacy he hoped to be called to the command of the army, but before he reached Montgomery he was advised of his election as provisionary president. When he reached the new capital of the Confederacy he found it impossible to change conditions, and he was compelled to accept the presidency, and he entered upon that duty as conscientiously as any public man ever entered upon an official career.—Colonel A. K. McClure in "Confederate Veterans."

A Yoga Story.

For fourteen years Bava Luchman Dass received from the priests of the Black Caves of central India the necessary education in order to become a yoga, as a yoga must be capable of taking the forty-eight postures of the Hindoo idols. Perhaps the greatest trick consists in balancing himself on the ends of his fingers while the whole of his body is in the air. Bava stated that in order to obtain the rank of yoga in the Black Caves of India he had to continue in this position on the ends of his fingers under the eyes of the judges, without a second's interval, for seven days and nights!—Strand Magazine.

Low Necked Dresses.

In the early days of Pennsylvania there was a law, as we learn from documents in the state department, which stated as follows: "That if any white female of ten years or upward should appear in any public street, lane, highway, church, courthouse, tavern, ball, theater or any other place of public resort with naked shoulders—i. e., low necked dresses—being able to purchase necessary clothing, she shall forfeit and pay a fine of not less than $100 nor more than $200."

—Rev. J. B. Carpenter, of Richmond, Va., field secretary of Presbyterian Sunday School work, last night in the Sunday School room of the First church, held a very interesting meeting with the officers and teachers of the Presbyterian Sunday Schools of the city. Rev. Mr. Carpenter will remain in the city over tomorrow and will preach at the First church tomorrow morning at the usual hour.

For Sore Feet.

"I have found Bucklen's Arnica Salve to be the proper thing to use for sore feet, as well as for healing burns, sores, cuts, and all manner of abrasions," writes Mr. W. Stone, of East Poland, Maine. It is the proper thing too for piles. Try it! Sold under guarantee at R. R. Bellamy's drug store. 25c.

The Theatre

The most discussed play in the entire world today is Franz Molnar's epoch-creating Hungarian comedy, "The Devil," which Henry W. Savage is now producing at the Garden Theatre, New York, to audiences that tax the capacity of that commodious playhouse. To say that the play has created a sensation is to fall far short of the truth. It has caused a veritable furore in every city where it has been seen. Nthing like it has been known in America in many seasons.

It is therefore, a matter of felicitation among local theatre-goers that this daring psychologcal and intensely dramatic play is presented at the Academy of Music next Friday night.

The production to be given here is the only correct and authorized Henry W. Savage version, which was translated directly from the original, by arraangement with the author and adapted for the American stage by Oliver Herford. Owing to the success of his companies in New York, Philadelphia, Chicago and other large cities, Mr. Savage has found it impossible to present the play in the smaller centres of population and has given permission to James D. Barton & Co., the well known theatrical firm to make known the Savage version of the play in this city. The production will be the same in every respect as that now being given by Mr. Savage's companies in New York, Philadelphia Boston and Chicago. There is a splendid company headed by Lionel Lawrence. The scenery has been painted by Arthur Voegtlin, the famous scenic artist of the New York Hippodrome and the production, in its entirety, is said to surpass anything hitherto seen in this city.

COLE BROTHERS' SHOWS

Wonderful Business Organization—System Prevails All Through.

It would be extremely difficult for the ordinary patron as he sits watching the meritorious performance of the Cole Brothers Shows, to conceive what a wonderfully and perfectly organized business institution they are. The organization of the largest mercantile house or the most expensive banking house seems but the play of a child when compared to its organization. The departments are like so many different lines of business at the head of each being a superintendent, all of whom are answerable and responsible to the general superintendent. The latter has no dealing whatever direct with the army of seven hundred employes. He deals only with the heads of the departments, and holds them responsible for the work and deportment of the men under them. Every afternoon at 5 o'clock the general superintendent assembles the superintendents of the many departments, and with them discusses the show's interests and advancement.

The show carries its own corps of detectives, presided over by those veteran detectives of evil doers, Detectives Allen, Griffin and Potter, who cooperate with the local officials in protecting the show's patrons, and of such efficiency is the detective corps that the travelers usualy found following up other circuses give them a wide berth. Three physicians are with the show at all times, not only to care for its employes but its patrons as well, should circumstances require them. The legal department is headed by two of the most prominent attorneys in the country. One of the features is the existence of sub-post office station for the caring of the show's mail. It is presided over by a regularly appointed postmaster, who has his office in the drawing room tent, with boxes, registry and money order departments, the same as every well regulated post-office. In the office wagon of the Cole Brothers is established a clerical force consisting of two stenographers, two bookkeepers, auditor, cashier, treasurer and paying teller. One of the beautiful business features with a show of this magnitude is that every day's business is complete in itself. Only a cash balance shows the work of previous days, and no running accounts further than salaries are carried over. Uncle Sam has been so favorably impressed with the working of this gigantic amusement that on several occasions he has detailed army officials to study the methods in use, with the view of adopting them in the regular army. Everywhere the remarkable and speedy system and the good deportment of this aggregation has been most favorably commented on.

The Cole Brothers Shows will be at Wilmington on Monday, October 5th.

Not the First Third-Time Runner.

From the excellent little campaign book being distributed by Captain W. M. Stevenson, agent for the Prudential Insurance CoC., of America, an observant Wilmingtonian calls the attention of the Star to the fact that Mr. Bryan is not the only American who ever made an unsuccessful run for the presidency twice and was elected on the third campaign. John Adams was a candidate against George Washington for both his first and second terms, having been elected over Thomas Jefferson as the third President of the United States. The late lamented Grover Cleveland was also thrice a candidate for the high office but the case is not near so analogous to that of Mr. Bryan in the present race for Presidential honors.

She Likes Good Things.

Mrs. Chas. E. Smith of West Franklin Maine, says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it." These painless purifiers sold at R. R. Bellamy's drug store. 25c.

HON. W. C. NEWLAND

(Continued from first page.)

made responsible to the people whom they are supposed to represent. The publicity of campaign contributions was tabooed by the Republicans in convention almost as unanimous. The reasons were apparent. The voters should not know to whom the party was under obligations for party ascendency. The people have a right to know under what influences the parties are elevated to power according to Democratic ideas and for that reason these campaign contributions should be published before, not after, the election. It was this same system of irresponsibility to the public that had sent Senator Foraker in disgrace to seclusiyn.

Mr. Newland next discussed the panics, contrasting to the satisfaction of every fair-minded voter, the record of both parties in times of financial turbulence. Many people honestly left the Democratic party in 1896 because of hard times that came on under Harrison's administration because they believed Mr. Cleveland to be responsible for it. He asked these same people in all honesty now, in the face of the greatest panic ever known, to return to the Democratic fold.

Taking up State issues, Mr. Newland referred to the splendid record of the Democracy in North Carolina, defending ably and satisfactorily to all, the regulataion of rates, the prohibition issue and expenditures. The penitentiary $220,000 in debt and reeking with scandal from one end to the other had been turned over to the Democrats and this administration it has, after paying all the debt, without one cent of additional taxation, been put on a self-sustaining basis with $194,000 in the treasury besides. He showed conclusively that prohibition was not a party issue and defended any argument along that line for disaffection on the part of voters. Out of 39 Republican members in the Legislature that called the State election, 37 of them voted for it, a larger per cent. than even of the Democrats. Every Republican county in the West had given large majorities for prohibition and the Republican leaders would vie with the Democrats in voting for it.

The speaker was particularly appealing to his hearers in his warning of the possible danger of turning the Legislature over to the Republicans; it might mean the loss of United States Senator Overman and the election machinery of the State, which would result practically in a nullification of the constitutional amendment and a return to conditions in the East as they were before 1898. Where the negro was not involved, it had been hard to impose the amendment upon the rugged mountaineers without education, and it had actually thrown the speaker's own county in the Republican column but better let it stay there forever, he said, than for the negro to again place his heel on the neck of the East. With the constitutional amendment, there is but one party here now and the East as the price of its deliverance owes it to the West to roll up now such a majority as will have a good moral effect upon the enemy in the mountains.

Mr. Newland closed with an appeal to the Democrats to come out and vote in November in order that the party majority in the State may not be impaired and in order that the county may have the representation to which it is entitled in conventions. He paid kindly his respects to his opponent on the ticket, Hon. Charles French Thomas, who was a backslider and would get back into the fold all right when he was older. Mr. Newland closed by reading a witty little Clearance Sale advertisement of the effects of the G. O. P., which was quite amusing and caught the crowd. He was liberally applauded at the conclusion of his splendid address.

RETURNS FROM CRUISE

Revenue Cutter Seminole in Port—Capt. Quinan in Command.

After a cruise of ten days down the coast as far as Fernandina, Fla., the revenue cutter Seminole arrived last night shortly after 6 o'clock, reaching her destination just 24 hours ahead of the hurricane reported off the Florida coast and moving in this direction, according to a wireless message received by the cutter shortly before reaching the Cape Fear bar.

This was one of her periodical cruises and nothing of interest is reported with the exception of destroying the sunken schooner Helen E. Taft, which met with disaster last January and since has been lying sixteen miles southwest of Lookout Bight. An unsuccessful attempt was also made to destroy the derelict schooner William L. Walker, which is lying 42 miles southwest of Lookout.

The cutter reported shipping badly tied-up at all southern ports, due to the approaching hurricane, making it rather unsafe for sailing vessels to risk a voyage. On her way up the Cape Fear the cutter passed two schooners on their way in to Southport in addition to five others, which came in during the past two days for harbor.

Captain J. H. Quinan, commanding officer of the Seminole, who has been on a leave of absence and has been traveling in France and Germany, since the first of last June, arrived in New York the first of the week, coming via the Red Star line. He proceeded to Washington and arrived in Wilmington yesterday morning. Captain Quinan received a pleasant greeting from the officers and crew. He reported a splendid trip and is greatly benefitted in health. First Lieutenant Camden has been commanding officer of the Seminole during Captain Quinan's absence.

It is now up to Editor Click, of the Hickory Republican sheet to prove himself not worthy of membership in that little Annanias Club recently formed by Ben Aycock with a charter list of one.

FALSE REPORTS

As to Lawlessness in the Virginia Mining Town of Arvonia.

Richmond, Va., Oct. 2.—Quiet reigns again in the State mining town of Arvonia in Buckingham county which has been so stirred throughout the week for fear of further lawlessness by an alleged band of outlaws. No arrests have yet been made nor are any further posses being organized. The officials and citizens feel that a still hunt will prove more effective. There was some excitement this morning over a report that one of the escaped prisoners, wanted by the authorities, had been captured, but this was without foundation. None of the men have even been seen. Without foundation also was the report that Charles Newton had been killed, supposedly by one of the reputed band. Newton was seen at his home yesterday and said he could not account for the report. If arrests are made there is likely to be a tragedy for the escaped men declared they would not be taken alive.

WOMAN'S BACKACHE

The back is the mainspring of woman's organism. It quickly calls attention to trouble by aching. It tells, with other symptoms, such as nervousness, headache, pains in the loins, weight in the lower part of the body, that a woman's feminine organism needs immediate attention.

In such cases the one sure remedy which speedily removes the cause, and restores the feminine organism to a healthy, normal condition is

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. Will Young, of 6 Columbia Ave., Rockland, Me., says:

"I was troubled for a long time with dreadful backaches and a pain in my side, and was miserable in every way. I doctored until I was discouraged and thought I would never get well. I read what Lydia E. Pinkham's Vegetable Compound had done for others and decided to try it; after taking three bottles I can truly say that I never felt so well in my life."

Mrs. Augustus Lyon, of East Earl, Pa., writes to Mrs. Pinkham:

"I had very severe backaches, and pressing-down pains. I could not sleep, and had no appetite. Lydia E. Pinkham's Vegetable Compound cured me and made me feel like a new woman."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

Now Is the Time to Advertise in The Star.

THE RUSTIN MURDER CASE

Mrs. Rice Adds Some New and Sensational Features While Under Examination by the Insurance Companies.

(By Wire to the Morning Star.)

Omaha, Neb., Oct. 2.—New and significant features were injected in the Rustin murder mystery today when Mrs. Rice was placed on the stand to answer questions pronounced by the insurance companies in which Rustin held policies. The answers were desired in case Mrs. Rice should get beyond the jurisdiction of the court and would refuse to return for the trial in case Mrs. Rustin made claim upon the companies for the amount of her husband's policies.

The most significant new feature was the fact that while Mrs. Rice was sick at a hospital and was being attended by Dr. Rustin, a strange man visited here a number of times and sent her flowers and candy. Mrs. Rice introduced this man as her uncle, but on the stand today admitted that he was not related to her in any way. She said his first name was "Jess" but that she did not know his surname.

An important feature was a letter from Mrs. Rice to Dr. Rustin, found in Dr. Rustin's papers after his death This letter was dated April 7th, 1908, and after thanking Dr. Rustin for kindnesses while the writer was a patient said:

"My baby is doing nicely and growing fast. My husband joins me in sending his best regards."

This is the first mention that Mr. Rice was in Omaha, although he was reported to have been seen a few days before the murder of Rustin.

After the hearing Mrs. Rice notified the court that she was unable to give the bond required and that she would remain in jail until the Davis hearing.

"That letter to Dr. Rustin about the baby was all a joke" said Mrs. Abbie Rice in an interview this afternoon. "There was never a baby. It was all a joke between myself and Dr. Rustin. Neither did my husband ever send Dr. Rustin his regards. I have not seen my husband for more than a year. That sending of regards was all a joke, too."

THE ELKSFEST.

Meeting After Regular Lodge Session Thursday Night.

In lieu of the regular weekly meeting of the lodge at the Elks' Temple Thursday night there was held a special meeting of all Elks interested in the Elksfest Week, November 2nd to 7th.

At this meeting, complete lists of committees were announced by Exalted Ruler Leitner, new committees were appointed, advertising matter distributed, appropriations allotted for the various committees, and it is expected that splendid results will follow. There are scores of members of the local lodge eager and willing to take active part in the Elks Society Circus, the Childrens' Playground Parade, the Initiation Ceremony and Minstrel Show, and in fact, every and all functions of Elksfest.

In the point of advertising, some well known and also original features are to be introduced. The chairman of the committee on advertising ordered early in the week fifty rubber stamps of various kinds to be distributed among the merchants, and to be used by them in stamping bills, statements, letterheads, circulars and advertising matter that are daily sent out, and especially about the first of the month. Stamps are also furnished to the restaurants and hotels to be used in stamping bills of fare and manuals. Sektches are being made for an engraved block or cut, depicting features of the Elksfest, and which will be used in printing on the backs of envelopes, advertisements to be furnished to merchants.

It is proposed also, to send a moving picture and stereopticon machine, with operator, using moving pictures and stereopticon slides, advertising the Elksfest through free street exhibitions, to nearby towns, giving one and two night entertainments. This will be very effective advertising.

Considerable interest is being manifested in the "Childrens' Playground Parade" as it has been designated by the Executive Committee of the Elksfest. It was originally intended to give this parade on Saturday, November 7th, but in view of the fact that the schools let out early, or that a half holiday can be obtained for the children, and that Thursday will be the biggest day in the history of the Elksfest, it has been decided to give the childrens' and floral parade Thursday afternoon, starting at 3:30 promptly. Mr. J. F. Leitner, Exalted Ruler and the Executive Committee, have named the following as a special Committee, with full charge of this parade: Mr. J. F. Woolvin, chairman; L. Stein, W. W. Blair and J. H. Rehder.

This Committee will enlist the services of some twenty or thirty prominent men and women of Wilmington, in order that the parade may be made a grand success. Already some eight decorated automobiles have been tendered, three merchants have signified a willingness to build children's floats, several schools have volunteered to put on special features and floats, and applications for entry blanks from the children who are owners of ponies and pony carts, have been received at headquarters.

KERN IN ATLANTA.

He Made Several Speeches in Georgia Yesterday.

(By Wire to the Morning Star.)

Atlanta, Ga., Oct. 1.—John W. Kern, Democratic Vice Presidential nominee, arived here late tonight and will be Atlanta's guest tomorrow. He will leave at 4 o'clock for Macon where he is to speak tomorrow night.

Leaving Birmingham this afternoon Mr. Kern made a ten minute speech at Anniston to a crowd of several hundred. He assured his hearers that a great change was taking place.

HON. JOHN SHARP WILLIAMS.

Strong Hopes of Having Him Here—To Newbern on Special Train.

Confronted with a miscalculation of the schedule by which he hoped to reach his designation from Atlanta via Wilmington and with a strong probability that Hon. John Sharp Williams, on account of this miscalculation would be unable to reach Newbern in time for his appointment there this afternoon, Congressman Chas. R. Thomas, who had arranged to have his colleague there at 3 o'clock called up President Cameron F. MacRae, of the local Bryan & Kitchin Club, yesterday afternoon and through him arranged with Atlantic Coast Line headquarters here to bring the distinguished Mississippian out of Augusta on a special train last night at 9 o'clock, reach Denmark, S. C., in time to catch the Seaboard Air Line for Raleigh and will this morning get to Goldsboro where he will proceed by another special to Newbern. Mr. Thomas and Mr. MacRae kept the wires hot for several hours when the possibility of Mr. Williams' not reaching North Carolina at all dawned on them and it was with a sigh of relief last night that word came that the distinguished visitor would get through all right.

Chairman Furlong and Mr. MacRae will extend a cordial invitation to Mr. Williams to come to Wilmington Monday and speak in the Court House Monday afternoon at 2 o'clock but a definite announcement cannot be made until today. It is believed that after the splendid co-operation of Mr. MacRae in getting the speaker to Newbern last night, that he can be prevailed upon to give Wilmington the appointment so much desired.

The following Associated Press telegram was received last night:

Atlanta, Ga., Oct. 1.—United States Senator-elect John Sharp Williams of Mississippi, who is en route north to speak in support of Bryan and Kern, spent a few hours here today as the guest of Governor Hoke Smith. Further than to say "I entertain strong hopes for Democratic success this Fall," Mr. Williams declined to discuss politics.

The Senator expects to make speeches in Michigan, Ohio, Illinois, Indiana, Kansas, Nebraska, West Virginia Maryland, Deleware, New York, Connecticut and Rhode Island during the month of October. He left here tonight for Newbern, N. C.

REMAINS BROUGHT HERE.

Concluding Funeral Services of Mrs. Lutterloh in This City.

Accompanied by the deeply bereaved members of the family, including the grief stricken mother, Mrs. Jos. H. McRee, a sister, Miss Sallie McRee, both of New York, and another sister, Mrs. J. C. Buxton and her husband, the Hon. J. C. Buxton, of Winston-Salem, the remains of the late Mrs. Anna Cameron Lutterloh, whose sad death occurred Wednesday midnight, were brought to this city on the train from Fayetteville last night and were conveyed to St. John's Episcopal Church, whence the funeral services will be concluded this morning at 11 o'clock with interment in the family lot in beautiful Oakdale cemetery.

The funeral party was met at the station by a large number of Wilmington friends, who extended their heartfelt condolences and gave every assistance possible in the arrangements for the conclusion of the funeral service here. The Fayetteville Observer of yesterday afternoon says:

"The funeral services over the remains of the late Mrs. Herbert Lutterloh took place at the residence on Haymount at 3:45 o'clock this afternoon and were impressively conducted by Rev. I. W. Hughes, rector of St. John's church, in the presence of a large gathering of sorrowing friends, nearly all of whom laid beautiful floral offerings on or surrounding the casket.

"The remains were taken to Wilmington on the afternoon train and the interment will take place there tomorrow.

"The pall-bearers were: Messrs. W. W. Huske, E. J. Lilly, L. A. Williamson, Jno. R. McNeill, Col. C. W. Broadfoot, Maj. B. R. Huske, Dr. J. H. Marsh and Dr. A. S. Rose."

ADMITTED THE CHARGE.

A. B. McKenna, Check Flasher, Placed Under a $200 Bond.

Admitting that he forged the name of Mr. J. W. Grady to a check and obtained $15, A. B. McKenna, a white man, who gives his home as Philadelphia and has been working here in the insurance business for a short time, was placed under $200 bond at the session of the police court yesterday and sent to jail in default of same.

McKenna had been employed since coming to this city by Mr. Grady, but on account of his conduct is reported to have been discharged, and this was followed by his hard luck and the forging of the check. It will be recalled that spurious paper was presented to S. Abelowitz, a merchant at Fourth and Bladen streets, and in exchange McKenna was given a suit of clothes and a hat. The check was found to be worthless when presented at the Murchison National Bank and the matter was immediately reported to the police by Abelowitz. He was arrested Thursday night and remained in the guard house until the preliminary trial under a $100 bond. When he acknowledged the forgery the Mayor raised his bond to $200 and he was committed to jail to await trial in the higher court.

McKenna is said to have also forged another check on Mr. Grady for $10, depositing it at the saloon of Mr. M. H. Kelly and drawing $5 in cash thereon. He is said to have a wife and family residing in Baltimore.

Why Is Sugar Sweet?

If sugar did not dissolve in the mouth you could not taste the sweet. GROVE'S TASTELESS CHILL TONIC is as strong as the strongest bitter tonic, but you do not taste the bitter because the ingredients do not dissolve in the mouth, but do dissolve readily in the acids of the stomach. OCTOBER WEATHER

Data Compiled From Weather Bureau Records Show Conditions Prevailing.

The decided drop in the temperature yesterday sent to the discard the few straw hats that had survived the earlier cold snaps of first Autumn and admonished one that sable Winter was indeed near. The hurricane predicted Thursday night was apparently moving northward some distance off the coast yesterday morning with the result that the western high pressure moved eastward into the interior with cooler weather in all eastern districts.

From data covering a period of 37 years in the history of the local weather bureau it is shown that the normal temperature for October is 64 degrees. The warmest month was 1881 with an average of 69 degrees, the coldest, that of 1876 with an average of 60; highest temperature was 92 degrees on the 6th in 1884; the lowest 32 degrees on the 16th in 1876. The earliest date on which first killing frost occurred was October 16th 1876; the average date on which first killing frost occurred in autumn being November 15th. The average precipitation for the month is 3.71 inches. The prevailing winds for the month are northeast.

IN THE GOULD CASE.

Affidavits Alleging Attempts to Bribe Witnesses—Statement by Mrs. Gould

(By Wire to the Morning Star.)

New York, Oct. 2.—That $2,000 had been offered an employee of the Hotel St. Regis to give false testimony against Mrs. Howard Gould was the substance of an affidavit, purporting to have been made by the Rev. F. Joseph G. Murray, which was presented to Justice Giegerich, in the Supreme court today. The case came up before the justice today on a motion to strike out certain allegations in Mrs. Gould's complaint in her suit for a separation from her husband as scandalous and irrelevant. Mrs. Gould's counsel opposed the motion and presented several affidavits in which it was charged that certain witnesses had been hired to testify in favor of Mrs. Gould. The affidavit of Mr. Murray was one of the papers presented. It declared that Michael H. Doody had told the priest that while he was employed at the Hotel St. Regis, where Mrs. Gould lived, a detective went to him with the proposition that he "give a proper report of Mrs. Gould's comings and goings at the hotel, the amount of wine she drank and the names of her visitors, notably those of them who were men."

Another affidavit made by Maurice Molloy, alleges that Molloy was under contract while custodian of Castle Gould at Port Washington to treat Mrs. Gould in a contemptuous fashion.

The lawyer for Mrs Gould recited how it was alleged that Molloy had gone into the house, sat on divans and puffed cigarette smoke in Mrs. Gould's face when she ordered him out of the house.

An affidavit submitted by Mrs. Gould in reply to allegations of her husband that she is addicted to the use of intoxicating liquors says:

"When living in the country and spending most of my time in the open air, I have drank a cocktail on sitting down to luncheon and generally a glass of white wine with lunch. At dinner, whenever I felt like it, I drank a cocktail and a glass of champagne. We were always accustomed to have wine served at these meals, but that was the extent of my drinking."

Then she accuses her husband of gross habits of intoxication. She says he was particularly annoyed by her husband during a trip to Egypt where they were entertained by the Khedive and Prince Mohammed Ali. She accuses Mr. Gould of being jealous when she went driving with the Prince, while he went in a carriage with another woman who was a guest at the lunch.

FIRE IS SWEEPING WINTHROP

Six Cottages And Two Hotels Burned And Flames Still Raging.

(By Wire to the Morning Star.)

Boston, Mass., Oct. 2.—A brisk fire broke out in the Summer Colony at Winthrop Beach at 11:30 tonight. Crest Hall a Summer hotel accommodating 75 guests and the Ocean View house are in flames and a large number of cottages nearby are burning.

Early this (Saturday) morning the fire was still raging with abated fury. Both Crest Hall and the Ocean View hotel had been razed to the ground with the Crest Hall Annex and six cottages. Help was summoned from Boston, Chelsea and Revere. A Mrs. Dumont of Cincinnati, a guest at Crest Hall, is missing.

At 12:30 A. M. a detachment of soldiers from Fort Banks was detailed to aid the firemen.

A Psychic Phenomenon.

An extraordinary incident is connected with Professor von Herkomer's famous painting, "The Last Muster," which was the picture of its year at the academy.

One morning soon after the exhibition was opened the artist was astonished to receive a letter from a lady, a perfect stranger, who said she was not aware until she saw "The Last Muster" at the academy on the previous day that her mother, then dead, had ever sat to the professor for her portrait.

Now, the figure in the picture was painted solely from imagination, and the artist hastened to explain this fact to his correspondent. She thereupon asked for an appointment and took an oil painting of her mother, asserting that it was a faithful representation of that lady.

The academician was astonished to perceive that he had really portrayed on his own canvas a facsimile of the figure in this other painting, although it was that of a woman whom he had never seen in his life.—London M. A. P.

Bismarck's Love of Nature.

Speaking of the country and the long walks he took daily, Bismarck said he loved nature, but the amount of life he saw awed him, and it took a great deal of faith to believe that an "all seeing eye" could notice every living atom when one realized what it meant. "Have you ever sat on the grass and examined it closely? There is enough life in one square yard to appall you," he said.—Lady Randolph Churchill.

Proud.

"So you enjoy seeing your boy play football."

"I should say I do," answered Farmer Corntossel. "It makes me right proud to see him out there an' realize that he is the young feller I was once able to whip."—Washington Star.

A Woman's Back

The Aches and Pains Will Disappear If the Advice of This Wilmington Citizen is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidneys' fault.

Backache is really kidney ache;

That's why Doan's Kidney Pills cure it.

Many Wilmington women know this.

Read what one has to say about it:

Mrs. M. A. Fowler, 226 S. Front St. Wilmington, N. C., says: "You are at liberty to use my testimonial in return for the benefit I received from the use of Doan's Kidney Pills. I suffered a great deal from dull nagging backaches, accompanied by pains in the region of my kidneys. My kidneys were quite weak and caused considerable annoyance by their irregular action: The contents of one box of Doan's Kidney Pills procured from Robert R. Bellamy's drug store stopped the backache and strengthened my kidneys. I have recommended Doan's Kidney Pills to several, of my friends I know them to be a valuable kidney remedy."

SPIRITS TURPENTINE

—Kenansville News: The sand-clay road has been a great blessing to the people who travel from Magnolia. This road should be finished by all means. Those who use the three miles of sand-clay road admit that it is a blessing to the public.

—The Robesonian: The election held Monday to vote on an additional tax of ten cents on the hundred dollars worth of property for school purposes resulted in the tax being voted by 9 votes. Only 12 votes were actually cast against the tax.

—The Robesonian: Willis Hunt, Croatan, who is wanted for the murder of Alex Oxedine near Rowland Saturday night, is said to have bought a ticket Sunday at Hamlet, N. C., for Sellers, S. C. Sheriff McNeill has the net spread and hopes to capture him within a few days. The murder of Oxendine did not become known until Sunday morning.

—News and Observer: Ex-Governor Chas. B. Aycock has been invited to address the Inland Waterway Congress at Baltimore November 17-19. This information was given out yesterday by Capt. A. W. Styron, of Washington, N. C., one of the best informed men on the waterway project in North Carolina. Capt. Styron will also attend the Baltimore Congress.

—Wadesboro Ansonian: Mr. W. G. Covington has had quite an experience digging a well on his place on the Morven road. The well is about 300 feet deep and no water. While it is an expensive operation, Mr. Covington thinks that the water he gets will be fine indeed, yet there is some danger of having to answer charges for trespassing on the other side, if he goes much farther.

—Asheville, N. C., Oct. 1.—A telephone message this afternoon shortly before 1 o'clock from Marshall stated that Regan Rice, Register of Deeds of Madison county, committed suicide at 11:30 today, at his home in Marshall, by shooting himself through the temple. It is understood at Marshall that Rice's suicide was due to ill-health and to brooding over reports that had been circulated about him during the campaign.

—Wadesboro Ansonian: Mr. B. G. Covington is the owner of a wise calf that has shown some disposition to get acquainted with modern home conveniences. In Mr. Covington's back yard, where the calf has its living apartments, is a water pipe and tub and when the calf gets "dry" and no one turns on water for him, he has learned how to manipulate the faucet and so help himself. This amuses Mr. Covington and makes him just that much prouder of his calf, but he is complaining now because the wise animal cannot be induced to turn the water off when the tub gets full. No. doubt he knows how but wants to be mischievious.

—Newbern Sun: Some little excitement was caused last night at No. 138 East Front street by the discovery of a snake, as if in the act of making its way in the house. The reptile was discovered by Mrs. J. W. Alford, wife of Rev. J. W. Alford, who reside at the above residence, and immediately called the attention of her husband to the unusual sight. By the time he reached the scene the snake had made its way under the house, but was killed and brought out. The snake was found to be a stinging snake about two feet in length. This variety of snake is unusual in these parts, as many of those who gathered during the excitement stated that they had not seen one in many years before.

—Charlotte Observer: For some time past, the proprietors of the three leading hotels of the city have been debating the advisability of changing their dining room service from the table de hote to the a la carte basis, the three hotels concerned being the Selwyn, the Buford and the Central. A meeting was held several nights ago but nothing of a definite nature was decided upon pending the perfection of arrangements of the new Stonewall Hotel which is to open up the middle of the month. For almost a year Mr. E. B. Moore proprietor of the Selwyn, has been running his hotel on both European and American plans and marked success has attended his efforts, particularly with the a la carte service.

—Morganton, Sept. 30.—From details which have just reached Morganton from the country the most horrible suicide that ever occurred in the State occurred Monday night about six miles from here. Will Mull who had been despondent and drinking heavily for some time past went to his home after dark in company with Ed Mull, a companion, and while in a drunken fit he drove his family from home with a razor and when things got quiet he and his companion went off to sleep. Ed Mull, the companion, was aroused by Will, who was piling the bed clothes and furniture on the fire, and was told to get out or he (Ed) would be burned up. Ed tried in vain to get the man to leave the burning house but he would not. Ed went to the window and saw Will crouched in one corner of the room sullenly waiting his doom. Will soon raised himself up and with a cry ran into the midst of the flames and was consumed. Nothing was left of his body but a few charred bones.

Excellent Heart Advice.

Mrs. M. M. Davison, of No. 397 Gifford Ave., San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, billiousness and torpor of the liver and bowels is so pronounced that I am prompted to say a word in its favor, for the benefit of those seeking relief from such afflictions. There is more health for the digestive organs in a bottle of Electric Bitters than in any other remedy I know of." Sold under guarantee at R. R. Bellamy's drug store. 50c.

An Enviable Spirit

is that of the man watching another take a drink of our Liquor, and a "spirit to be envied" is that same Liquor. It is mild, delicate, delicious in flavor, yet has the right "smack" that afterwards gives the body a warm glow throughout. And it is the kind you will take pride in offering to a caller at the house—for he will appreciate it also. Try a sample and then hear our prices.

THE COTTON MARKET.

(By Wire to the Morning Star.)

New York, Oct. 2.—A slight early advance in cotton today was followed by a decline during the afternoon from which the market rallied partly, closing very steady, net unchanged to 5 points lower. Sales were estimated at 175,000 bales.

The market opened steady at a decline of 1 point to an advance of 1 point and soon firmed up as the census figures were rather under recent expectations with prices shortly after the call showing a net advance of 5 @ 6 points. Part of this gain had been lost under realizing before the condition figures were issued at 11 o'clock and later the market became quite weak under liquidation by early buyers who were disappointed that the government reports had failed to stipulate buying interest, while there were also reports of lower interior markets, weather reports were favorable and the south was a steady though moderate seller of local futures. After showing a net loss of 5 @ 7 points the market steadied up on realizing by shorts and the active months closed some 2 to 5 points above the lowest. The condition figures 69.7 compared with 67.7 last year and 71.6 two years ago, and proved so near expectations as to have practically no effect on the market.

Receipts at the ports today 46,772 bales against 47,639 last week and 47,080 last year. For the week 345,000 bales against 286,179 last week and 276 last year. Today's receipts at New Orleans 4,892 bales against 2,967 last year and at Houston 14,241 bales against 5,496 last year.

Spot cotton quiet 5 points decline; middling uplands 9.25; middling gulf 9.50; sales 2,450 bales.

Futures opened steady and closed very steady.

DRY GOODS MARKET.

(By Wire to the Morning Star.)

New York, Oct. 1.—There has been a better business done in the drygoods market recently in convertibles and other grey cottons but at a very low price. Cotton yarns are quiet and fairly steady. The local wool market is generally quiet. Jobbing trade was quiet.

NEW YORK STOCK MARKET.

(By Wire to the Morning Star.)

New York, Oct. 2.—The professional room traders still had the stock market much to themselves today and for much of the day their devices for moving prices were as lacking in force and success as on preceding days. The publication of the statement of the August net earnings of the Harriman Pacific railroads midway of the session put a different face on the market and proved an effective supplement to the rather futile effort of the traders to advance prices. The Union Pacific statement especially, was regarded as evidence of a notable turn for the better in the railroad business situation. This demonstration of sustained earning power in a stock the price of which implies a doubt of the maintenance of the present dividend rates proved an incentive to an active speculative movement in it. The price mounted buoyantly and carried the rest of the list decisively with it, at first irregularly and hesitatingly but with gathering momentum. Before this influence developed the market was of the same narrow professional character and the same halting, sluggish price movement as on the earlier days of the week. The severe deterioration in the condition of the cotton crop shown by the government report received small attention in the cotton market itself and was therefore ignored in the stock market. The cotton market, however, is under the dividend influence of this factor and the lessened consumptive demand caused by the English cotton mill lockout. Estimates of a loss in cash holdings by banks of $7,000,000 for the week caused no uneasiness in view of the ease with which the October settlements have been financed.

Bonds were firm. Total sales, par value were $3,606,000. United States bonds were unchanged on call. Total sales today were 626,300 shares.

FINANCIAL MARKET.

(By Wire to the Morning Star.)

New York, Oct. 2.—Money on call steady 1 1-4 @ 1 3-4, ruling rate 1 1-2, closing bid 1 1-4, offered at 1 1-2. Time loans very dull and steady. Sixty days 2 1-2 @ 2 3-4 per cent., and ninety days 3 per cent.; six months 3 1-2 per cent.

Prime mercantile paper 4 1-4 to 4 1-2 per cent., sterling exchange weaker with actual business in bankers bills at 4.8485 @ 4.8495 for sixty day bills and at 4.8620 for demand, commercial bills 4.84 3-8 @ 4.84 5-8. Bar silver 51 1-2. Mexican dollars 45.

Dunn's Trade Review.

(By Wire to the Morning Star.)

New York, Oct. 2.—R. G. Dunn & Co's weekly Review of Trade tomorrow will say:

Seasonable weather stipulated retail trade materially and the better distribution to consumers brought a larger movement in wholesale and jobbing departments, but in most leading industries there is still hesitation. Low stocks of merchandise necessitate urgency in replenishment when dealers find retail buying on a normal scale, as in the case in many sections of the country, but preparations for distant requirements proceed cautiously although expressions of confidence are heard on all sides. On the whole there is improvement in mercantile collections yet in many lines especially at the east, irregularity is noted. Many factories have further increased the number of hands at work.

Textile production has increased and in some divisions of the primary cotton goods market there is improvement, but little difficult change is expected until 1909. Spot goods alone attract buyers ,practically no contracts covering distant deliveries, which is an element of strength for the future, although on adverse influence at the present time.

Belle of Virginia Rye deserves its name, and the name is certainly one of distinction and old-time aristocracy. It's a whiskey we are proud of on account of its purity and high quality and its hosts of admiring friends who will drink nothing else. Belle of Virginia is a blend—a scientific, uniform blend of pure, old goods. It's a whiskey with a flavor, and a fine, invigorating after-effect long to be remembered by those who drink it. Try it and you will make no mistake.

Sold at the places where gentlemen go to get a drink.

BONAPARTE'S REPLY TO DANIELS' QUERY

Statement From the Record of Prosecutions by The Government of Trusts.

THE CASES PROSECUTED

During the Present Administration and Fines Imposed Compared With Similar Work During Other Administrations.

(By Wire to the Morning Star.)

Washington, Oct. 2.—Attorney General Bonaparte today made public his reply to a letter he had received from Josephus Daniels, chairman of the Democratic press committee at Chicago, asking for facts connected with trust prosecutions by the Department of Justice, including the present standing of litigation by the trusts. The reply gives a summary of the cases prosecuted substantially as furnished in a report made public two days ago, a copy of which the Attorney General forwarded to Mr. Daniels.

The Attorney General says that his Department has prosecuted all cases under the Sherman anti-trust or Inter-State Commerce laws that have been brought to its attention from responsible sources where the facts disclosed warranted such action.

The Attorney General's letter says:

"There has been instituted, during the administration of President Roosevelt 228 proceedings, civil and criminal, under these statutes, of these 73 have been concluded successfully, 40 have been concluded unsuccessfully and 115 are now pending. The various fines imposed in criminal cases amount, in the aggregate, to $1,260,325. Under previous Republican administrations there were instituted under these laws 74 civil and criminal proceedings of which 13 were concluded successfully, 60 were concluded unsuccessfully and one is yet pending. The amount of fines imposed in these proceedings was $8,501.

"Under previous Democratic administration, there were instituted under these laws 50 proceedings, civil and criminal, of which 14 were concluded successfully, 35 were concluded unsuccessfully and one is now pending. The fines imposed in these proceedings, amount in the aggregate, to $10,000. I could not inform you how many corporations, in the aggregate, have been defendants in these cases without an inquiry which would be attended with considerable delay. The number is undoubtedly quite large, since in most of the civil proceedings there have been numerous defendants of this character. For example in the suit of equity against the Standard Oil Company of New Jersey and others there are some seventy corporations as well as a number of individuals among the defendants.

"It is expected, of course, needless for me to say, that the mere fact that a corporation or association is called a 'trust' by Mr. John Moody in his manuel does not prove, or even tend to prove that the organization in question or its members have been guilty of violation of any Federal law; neither is such guilt suggested by the fact that such organization may do a large and apparently profitable business.

The criminal provisions of the statute generally known as the Sherman anti-trust law apply only to these who enter into contracts, combinations or conspiracies in restraint of trade, and, although the statute provides that such contract, combination or conspiracy shall be none the less criminal because it takes the form of a trust, this does not, of course, make trusts of themselves criminal.

"Since I have been Attorney General this department has prosecuted, either civilly or criminally all cases of alleged misconduct under the statutes above mentioned which have been brought to its attention from a responsible source, and in which the results of a careful inquiry by competent and impartial officers disclosed the existence of such facts and of such obtainable legal evidence to prove them as afforded a reasonable hope of success in such prosecution.

The policy of the department will be the same during the remainder of my term in office."

AMERICAN MUNICIPALITIES.

The League in Session at Omaha Adjourns to Meet in Montreal

(By Wire to the Morning Star.)

Omaha, Neb., Oct. 2.—After deciding to meet next year in Montreal and electing officers, the League of American Municipalities adjourned its annual convention this afternoon. Montreal won the next convention over Milwaukee, the final vote being 18 to 17.

Silas Cook, mayor of East St. Louis, Ill., was elected president and John McVicar of DesMoines was chosen secretary-treasurer. P. J. Duvant, of Savannah, Ga., was elected vice president and T. J. McCarthy, Charleston, S. C., was named as a trustee.

At today's session Mayor W. R. Joyner, of Atlanta, Ga., gave figures from the police and court records and from the city treasurers office of Atlanta, showing a falling off of more than 50 per cent. in the arrests for drunkenness and misdeameanors primarily attributable to drink since the establishment of prohibition.

Mayor David R. Rose, of Milwaukee, followed, quoting figures to show that the number of arrests in Atlanta at present exceeds those in Milwaukee. He paid a glowing tribute to the orderliness of his own city. Mayor Rose took a strong position against the primary law.

H. P. Smart, of Savannah, Ga., died September 24, on board the steamer Mongolian, while enroute to Tokio.

CHAIRMAN MACK ASSAILS SHELDON

Charges That Republican Treasurer's Relations With Trusts Obtained His Position.

IDENTIFIED WITH 17 CONCERNS

Known To Be Director in Street Company—Statement Issued by Democratic Chairman Mack—Sheldon Will Not Reply.

(By Wire to the Morning Star.)

New York, Oct. 2.—Following an attack of National Chairman Mack today on the corporation affiliations of George R. Sheldon, treasurer of the Republican National committee, it was learned tonight that the Democratic National committee is preparing to assail the corporation connections of William Nelson Cromwell, member of the advisory committee of the Republican National committee.

Other members of the Republican Advisory committee, it is understood, are also being investigated and representatives of the Democratic committee are carefully inquiring into the financial records of the Republican committeemen. For several days the corporation records of Mr. Cromwell have been under quiet investigation but whether the representatives of the Democratic committee have learned anything of Mr. Cromwell's financial operations other than the companies with which he is identified, has not been made known. Chairman Mack will leave for the West tomorrow night and there may be some developments with regard to the planned attack on Mr. Cromwell tomorrow.

Mr. Mack today made the following statement:

"The trust and corporation affiliations of George R. Sheldon, treasurer of the Republican National committee for the past ten years make interesting reading in view of the recent developments in the campaign.

"I wish to recall in this connection that because of these very associations of his Governor Odell in 1902 refused to permit the party leader to put Mr. Sheldon in nomination for Lieutenant Governor. Governor Odell at that time declared that he would not accept the re-nomination for head of the State ticket if Sheldon were named as his running mate. But while the Republican party has refused to put up Mr. Sheldon's name for a public office it has for the identical reason for this refusal selected him for its campaign fund collector.

"This cannot be denied. Most of the corporations with which Mr. Sheldon is identified are capitalized for millions. How much of their stocks is of liquid variety can be easily ascertained. Yet Mr. Roosevelt has defended him and his resignation was not demanded when Mr. Dupont was invited to step down and out. Mr. Dupont was only identified with one trust while Mr. Sheldon is at the present time intimately identified with no less than 17 prominent financial concerns.

"One of these, the Bethlehem Steel Company, does not employ union labor and has opposed the organization of its employees for the past sixteen years.

"Mr. Sheldon is a director of that company. He is also treasurer and director of the North American Company, capitalized for $30,000,000, a concern known as the 'Mystery of Wall Street.' It is but few years back since he was prominently identified with the 'whiskey trust.' A glance at his connections with various companies for the past ten years will explain tersely the reason of his present position. No further comment of mine is necessary."

The corporation named by Mr. Mack include railway, industrial and financial concerns here and elsewhere.

Mr. Sheldon when shown the statement said it did not contain anything to which he desired to make reply.

STIRRED POLITICAL CIRCLES.

Intimated That Elihu Root Was Sent by the President.

(By Wire to the Morning Star.)

New York, Oct. 2.—When it was reported here today that Secretary of State Elhu H. Root had visited Republican National headquarters here last Wednesday and made inquiries regarding the working of the various departments under the National Committee a flutter of excitement was caused in political circles. The report went forth that Secretary Root had been sent by President Roosevelt because the President was not satisfied with the manner in which the campaign was being conducted. Secretary Root was credited with his having returned to Washington and there expressed the conclusion that National Treasurer Sheldon was to blame for the lagging of the campaign, he having left to Chairman Hitchcock much of the business that should have been disposed of by the treasurers department.

Treasurer Sheldon was not at his office this afternoon, but his assistant George Terry, said that the treasurer's department had no reply to make.

No confirmation of the reported purpose of Secretary Root's visit to National headquarters could be obtained. It was said that Secretary Root was in this city on Wednesday and that he called on Chairman Hitchcock at the hotel Manhattan. He talked for some time with Secretary Root principally of the speeches Mr Root is to make in this State.

Mr. Hitchcock invited Mr. Root to National Headquarters to meet the heads of departments and such members of the Executive committee as were in the city.

Mr. Root went to headquarters later in the day, but it is stated that his visit was entirely informal.

ATLANTIC FLEET REACHES MANILA

Fresh From Australia Port With Two-Thirds of World Cruise Completed.

WILL VISIT JAPAN NEXT

Prevented Exchange of Formal Calls With the Shore Yesterday—Gov. Smith Will Visit Admiral Sperry.

(By Cable to the Morning Star.)

Manila, Oct. 2.—Fresh from a triumphant reception in Australian ports and with their cruise around the world two-thirds accomplished, the sixteen battleships of the American fleet which started from Hampton Roads last December, are anchored in double column off the Breakwater close to the Luneta, or public square.

Thousands of residents of the islands crowded every available spot commanding a view of the anchorage.

Soon after anchoring, the rear admirals commanding the divisions and the captains of 15 vessels assembled on board the flagship Connecticut to pay their respects to Rear Admiral Sperry. The only salute marking the arrival of the fleet was fired in honor of Rear Admiral G. B. Harber, commanding the third division of the Pacific fleet as he went over the Connecticut to greet Admiral Sperry.

It was announced that orders had been issued directing that nothing be taken aboard from on shore pending further consideration of the epidemic of cholera in Manila. Shore leave will be granted the officers, providing they return to ship by 10 P. M.

Thousands of persons tonight thronged the Luneta which was brilliantly illuminated.

There were no exchanges of formal calls with the shore this evening. After the water parade in the morning in which all Manila will participate, Governor Smith will call upon Admiral Sperry, who will later land and return the call, also paying his respects to Major General Weston, commanding the troops stationed in Manila.

The latest reports show that the cholera in this vicinity is diminishing rapidly. It is ordered that the city will be clean in a few days.

The fleet will sail for Japan on the evening of October 9. The voyage of the fleet from Australia to this port was without special incident.

Lieutenant Frank Taylor Evans, of the battleship Louisiana and Lieutenant Charles Burt, of the battleship Georgia will be tried before a special court martial aboard which will assemble on the battleship Wisconsin, October 5.

The charges against Lieutenant Evans are: Being absent from his station while acting as chief of deck, using profane and disrespectful language to a superior officer and intoxication. The charges against Lieutenant Burt are for "conduct unbecoming an officer and gentleman."

Rear Admiral Seton Schoeder, of the battleship Wisconsin will act as president of the court.

Midshipman Richard Bernard, of the battleship Louisiana, was tried before a court martial board at Albany, Australia and the sentence was dismissal from the service. Bernard was found guilty of being under the influence of liquor while on parade in Melbourne.

Midshipman Edward H. Connor, of the battleship Minnesota, will be tried on the charge of being under the influence of liquor while at Albany, Australia. Captain Hugo Osterhause, of the battleship Connecticut, as president of the court which sentenced Midshipman Bernard.

REPLIES TO GOV. HUGHES

Bryan Answers Assertion That His Experience in Public Life Will Not Qualify Him For Presidency. Speaks To Club.

(By Wire to the Morning Star.)

Lincoln, Neb., Oct. 2.—Speaking tonight before the German Bryan Club of Lincoln, William J. Bryan answered the criticisms which had been made of him by Governor Hughes and other Republican leaders that his experience in public life was not sufficient to qualify him for the Presidency.

Mr. Bryan asked his audience: "Why this new born zeal for experience?"

He cited Abraham Lincoln, General Grant, Benjamin Harrison and McKinley as having had no particular experience previous to their nominations. As for Governor Hughes, who, he said, had laid special emphasis on Mr. Taft's experience, and qualifications, he declared he had had but two years experience as Governor of the State of New York, "and yet he thought three months ago that he was as well qualified for the Presidency as Mr. Taft."

Taking up the charge that he may not make wise appointments if elected to the Presidency, Mr. Bryan insisted that the arguement should not be made by a Republican because he said for the next two years, at least, the Senate will be Republican and pass upon all important questions, thus sharing in the responsibility if any objectionable men are named.

"I am satisfied," he said, "that I can find such excellent men that even a Republican Senate will not dare to reject them."

"The German element in our population", continued Mr. Bryan, "is a very important one, both in numbers and in the character of the men who have come to us from Germany. The German language is rich in philosophy, oratory and in poetry and the Germans who have come among us have brought not only their literary tastes, but their thrift, industry and integrity. They have helped to build up our country and the German strain in our blood has added to the energy, honesty and independence of the composite American. I appreciate the support which is given to the ticket by the German Democrats here and throughout the country."

After discussing a number of issues he said:

"The Republican arguement that we hear so much of now is that the Democratic success will disturb business. Our contention is that Democratic success will restore prosperity. How can the Republicans threaten us with panic when a panic came under the present President and is still upon us?

"In some respects it is the most acute panic that we have ever had, and there was less in natural conditions to justify it.

TELLS WHY

Andes' Great Remedies Bring Grateful People to the Drug Stores.

Andes Great Medicines that were introduced in this city by Andes, the Advertiser, seem to be accomplishing all that the press and public say about them.

This is proven by the number of people who call every day at Bellamy's Drug Store to express their gratitude for the great good the medicines have done them.

In regard to this matter Mr. Andes says: "To the outsider the many callers that come to the drug stores after my first week in a city, people who have been using the Andes Great Medicines and who come to tell what is has done for them seems to be very unusual, but in the past few years I have been going through this experience in every city that I have visited, therefore I take it much as a matter of fact.

"A sick man or woman who has been benefitted and made well again in a comparatively short time, is the most grateful person you ever saw."

Andes Great Prescription acts specifically on the stomach, kidneys, liver and bowels, cleansing the system and casting off through nature channels or human sewers waste accumulations, such as sloughing, dripping of mucous, which causes catarrh; acids from the kidneys, which causes skin troubles of various forms, and the impurities from the kidneys, lodging in the muscles and ligaments around the joints, is the cause of rheumatism, the fact that Andes Great Remedies go directly to the cause of these complaints is the reason we get such quick and wonderful results from all who are using it."

At Bellamy's drug store, headquarters for the Great Andes Remedies, hundreds of sick people are calling daily to purchase these medicines and relate their own remarkable cure or that of their neighbor. While at every drug store in the city many cures are reported daily. While the sales of Andes Great Prescriptions and Oil are said to be enormous.
